1. A status update of the page 1 related application is requested.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the last two lines of the claim, "component----between the motherboard and the component" is confusing and indefinite. Should the second component be heat sink?

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claims 1-11 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Moore.

Sink 40, clip 12 and the component and board are seen in the cover figure. The word "on" is broad enough to read the reference as proximate the edge of the sink. All else is clearly seen.

6. Claims 1-3,5,6,8-13 and 15 are rejected under 35 U.S.C. 102(e) as being anticipated by Melberg et al.

Clips 128 are polygonal and a protrusion goes through cutouts in the sink. All else is clearly seen.

7. Claim 14 is allowed.
